THE EDICT  
of  
HER IMPERIAL MAJESTY  
AUTOCRATRIX OF ALL THE RUSSIAS.

FROM THE ADMINISTRATING SENATE.

**T**he Edict of the 18<sup>th</sup>. of August of this present year under *Her Imperial Majesty's* Sign manual to the Senate, sets forth; That among other obstacles which retard the russian commerce from attaining its most flourishing state, *Her Imperial Majesty* had been pleased to observe that the Tariff which has hitherto been in force is no small one; Because it was made without paying due regard to the Principles which ought to have been attended to, and taxed Goods of equal necessity, with very unequal Duties: & that for this reason *Her Imperial Majesty* had been pleased to order the Commission of Commerce to form a new one upon certain Principles, among which the following were prescribed.

- 1 ) That Smuggling should be prevented.
- 2 ) That such foreign Goods or Merchandises as Russia stands in need of, should be eased; & those that contribute to superfluous Luxury be loaded, or entirely prohibited.
- 3 ) That for the encouragement of the Manufactories and Handicrafts of the Country, unwrought Materials should be preferred to manufactured Goods.
- 4 ) That the Exportation of Russian Products and particularly of manufactured ones, should be more encouraged; and on the contrary, that those Russia stands in need of for its own use, should be restrained from exportation, by Prohibition or by heavy Duties.

5 ) That every thing useful to the preservation of Health, & necessary for the convenience of Life, should be lightly taxed or permitted to be imported Duty free. And Lastly That for the readier dispatch of Business the several Duties should be thrown into one, & the payment of the said Duties be left to the Option of every Trader to be made either in Rixdollars, or in the Coin of Russia.

The Commission adhering to these Principles presented to *Her Imperial Majesty* a new Tariff, which *Her Imperial Majesty* after mature Consideration & some proper Alterations was pleased most graciously to confirm; ordering the Senate to print the Same in several Languages & publish it thro' the whole Empire, signifying that the same is to take place the 1<sup>st</sup> of March of the ensuing year 1767. And as *Her Imperial Majesty* is most graciously pleased thus to contrive expedients for advancing the Russian Commerce to its most flourishing condition, for the better promoting the welfare and prosperity of all her faithful subjects, regardless of any diminution her Revenues may thereby suffer; The same is therefore hereby made publickly known.

The Original is Signed by the  
Administrating Senate.
